

## Evacuation Shelters

### What is an evacuation shelter?

It is a facility designated by the City and residents whose houses are affected by disasters can take shelters in these facilities for a certain period of time.

### To search a shelter near your home

You can search designated evacuation shelters near you from your address.

[Search evacuation shelters from here \(external website\)](#)

### Suspension of the use of a shelter

Due to improvement work, the following facility cannot be used as an evacuation shelter during the period written below.

Nishinomiya School for disabled children: Location; 2-29, Koshienharukazecho No32

Period of suspension; August 1, 2019 - August 31, 2021

### List of evacuation shelters

The evacuation shelters to be opened are different according to the types and conditions of the disasters.

**At a time of a large-scale disaster such as an earthquake, all evacuation shelters will be opened**, in principle. When there are possibilities of disasters such as landslides due to heavy rain or a typhoon, the shelters will be opened in accordance with the state of the issuance of different levels of evacuation information (e.g. evacuation advisory)

### The evacuation shelters at times of heavy rainfall or typhoons

On the list below, the shelters in pink frames are the ones you can evacuate before the issuance of evacuation information (e.g. evacuation advisory) and the shelters in green frames are the ones which will open when there are risks of landslides, floods and high tides (when evacuation information such as the evacuation advisory is issued.)

※ See the “types of disasters to open shelters” column on the list of evacuation shelters.

### When evacuating to a shelter

Please make sure to confirm whether the shelters are actually open on City's Website, Nishinomiya Disaster Prevention Net, or the d button on your TV. (Some shelters may not be open due to reasons such as the state of the disaster or construction work.)

When evacuating, please bring necessary food, drinking water, medicine, clothes and masks, thermometers, slippers as coronavirus infection prevention measures.

The descriptions, “2<sup>nd</sup> floor” or “3<sup>rd</sup> floor” on the list of shelters indicate that the building can be used as shelters only on floors mentioned or higher.

### List of evacuation shelters

#### Nishinomiya area

No.	Names of Evacuation Shelter	Location	Telephone	Types of disasters to open shelters	Capacity	Remarks
1	Nishinomiya compulsory education school	4-Chome 2-31, Nishinomiya	0798-32-0260	Storm surge	2,740	※
3	Nishinomiya community hall	4-Chome 13-1, Nishinomiya	0798-34-2002		140	

※ See [here \(external website\)](#) for the actual site of evacuation

#### Takasu area

No.	Names of Evacuation Shelters	Location	Telephone	Types of disasters to open shelters	Capacity	Remarks
-----	------------------------------	----------	-----------	-------------------------------------	----------	---------

4	Prefectural Nishinomiya high school	2-Chome 1-43, Takasucho	0798-45-2043		Tsunami floor 3 <sup>rd</sup>	680	
5	Takasu elementary school	1-chome 1-41, Takasucho	0798-40-1300	Mukogawa flood 2 <sup>nd</sup> floor Storm surge		1,500
