

Nishinomiya City LINE Coronavirus Notification System

Please scan the QR code and cooperate in preventing the spread of coronavirus disease (COVID-19) infection.

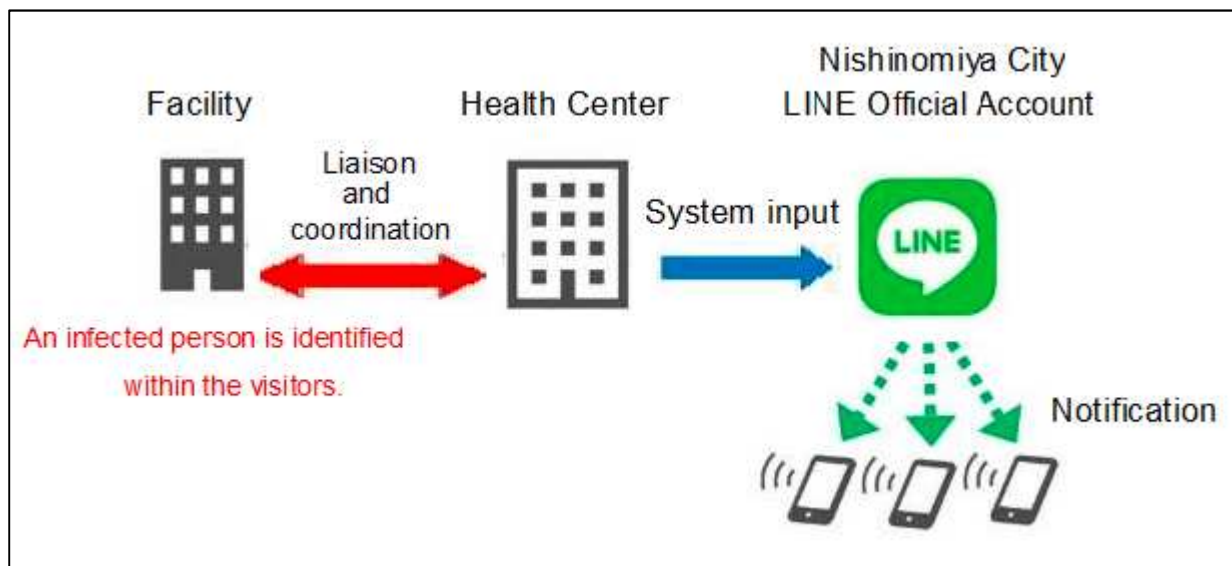

1. Please use the QR code reader in the LINE app of your smartphone to scan the QR code for LINE Coronavirus Notification System located at the facilities and event venues in Nishinomiya City. After scanning, please tap the word “許可する (I consent)” written in green. The information about the facility will be registered automatically.

If you have not registered Nishinomiya City LINE Official Account as your friend, please tap the “友達追加 (Add to the list of friends)” also written in green. When you see “チェックインしました(You have checked in)” on the screen, the registration is completed.

2. If someone who visited the facility on the same day as you contracts the virus and when the Health Center determines that there is a possibility of the spread of infection to unspecified number of people, a notification will be sent to you.

3. When you receive the notification, please consult the point of contact (Health Center) written on the notice by phone. The Health Center will notify you about the visit to a medical institution and the testing.

- ※ When there are multiple numbers of QR codes in one facility, please scan them all.
- ※ Please scan the QR code every time you visit a facility.
- ※ The City will not obtain or use information such as your name, address, phone number, GPS location information, or your record of visits.
