

## Buses

### When you want to ride a city bus

The destination of the bus is indicated on the upper-front part of the bus.

Bus routes and bus stops vary depending on the bus company and bus route, so it is important to check this before getting on a bus.

Before getting on a bus, try to have enough change ready for the fare.

In Nishinomiya City, Hanshin Bus, Hankyu Bus and Minato Kanko Bus provide service.

### Points to note when riding a bus

There are single-fare routes and routes on which fares vary depending on the distance.

Fares must be paid either when getting on the bus or when getting off.

To get off, signal the driver by pushing the button before your destination stop.

Elementary school children and younger are half of adult-fare, but junior high school children and older must pay an adult fare.

The fare is free for children younger than 1 year old.

A child under 6 years old accompanied by someone older than 6 years old may ride for free. (The number of children that may ride for free varies depending on each bus company.)

Besides regular bus tickets, there are commuting passes, multiple-tickets, IC cards, and discount service for elderly people.
